

Homework 12: Logging in xv6

1 Logging

The goal of this assignment is to understand the `logging` in `xv6`.

1.1 Turn in:

Write the source code commentary of the following routines in `xv6`.

- `begin_op`
- `end_op`
- `log_write`
- `commit`
- `bread`
- `brelse`

2 Submission

Upload a pdf file with your answers on the Backpack. This is a project group homework. Only one project member needs to upload. You must follow the naming convention as `group_id.pdf`.
